

POLY-SOLV HD

Polymer Residual Cleaner

OVERVIEW:

Poly-Solv HD is our strongest polymer cleaner ever — built to tackle your toughest flocculant spills with less product and better results. Its ultra-concentrated formula cuts through heavy residues fast and can be diluted further than conventional cleaners, saving you time, labor, and cost. Powered by our most advanced detergent and surfactant technology, Poly-Solv HD redefines efficiency in polymer cleanup.

KEY FEATURES:

- ✓ **FAST-ACTING FORMULA** — Rapidly breaks down long-chain flocculant residues for quick, efficient cleanup.
- ✓ **HIGH-STRENGTH DETERGENT BLEND** — Concentrated surfactants penetrate deep for superior cleaning performance.
- ✓ **EFFICIENT DILUTION RATIO** — Use at a 4:1 water-to-product ratio for large spills, minimizing product waste.
- ✓ **HIGH-VISIBILITY GREEN COLOR** — Easy to identify for added safety in busy plant environments.
- ✓ **NON-HAZARDOUS SHIPPING** — Acid- and ammonia-free formulation ships safely and complies with handling regulations.
- ✓ **FLEXIBLE PACKAGING OPTIONS** — Available in multiple container sizes to suit your operation's needs.
- ✓ **MONEY BACK GUARANTEE** — If you don't like it, you don't pay for it!

USE AREAS:

- ✓ Belt filter presses
- ✓ Polymer tanks
- ✓ Screw presses
- ✓ Volute presses
- ✓ Centrifuges
- ✓ Polymer feed lines
- ✓ General spills

TECHNICAL SNAPSHOT

Activity	2x Industry Standard
Dilution Ratio	Ultra High. Up to 20:1
Detergent Content	2.5x Industry Standard
